THE CURSE OF INSOMNIA.

Modern physiological research pro-

sleeplessness? What can be done to

cure insomnia? In these two leading

questions the entire subject is consid-

trace their troubles to causes readily

remediable in the beginning.

The absence of correlation between

the brain and the stomach must be

known as a prime factor in preventing

sleep. The muscle brawn laborer rests

They say that in twelve months there will be five millions invested at Piedmont. That is the name they have given the new city. We used to think that such things were just an artful scheme to fleece the lambs, but it does not look that way now. The whole South is on a boom. Look at Florence, only two years old and twelve millions invested. Look at Sheffield, and Decatur, and Fort Payne, and Middleboro. Yes, Middleboro, only six months old, and ten millions invested. Some years ago McKenzie murdered a man in Rockingham County by the name of Goode and was sentenced to hang. Four days before his execution was to take place he broke out of jail at Wentworth and escaped. In bout two weeks he was recaptured and gain lodged in jail. The Governor appointed another day for his execution but again be broke jail and escaped. Nothing more was heard from him until Sunday when he was seen with his band of six men is the upper part of Rockingham county. It is reported that Mc-Kenzic a day or two ago sent for Dr. Withers of Blakely, Stokes County, who is an old acquaintance of his, and met him in the woods, where the two were engaged in a conference for a number of ours. The outlaw told Dr. Withers that since he escaped the gallows at Wentworth he had rambled over many States, and said that he had killed man in Georgia and had been sentenced your letter, I beg to assure you that to a long term in the penitentiary there, for every soldier of mine 'murdered' but had escaped. A POWER IN NATURE.

The Strange Doings of Daley Robinson N. T. Commercia! Advertiser. Miss Daisy Robinson of Sumter, in South Carolina, ought rather to be looked upon as a centre of force than a Wentt McKenzie, a Natorious Escaped human being of common mold. Wherever she may be, most mysteri-

ous and striking events are apt to occur, and it is not to be marveled at that, as a dispatch from sumter says, she seldom smiles. A person so dreadfully apt to have unearthly events attends attend her presence must have small reason to smile The people of her neighborhood are much excited over Miss Daisy and do not pretend to understand ence, and at once begins to

niture seems to be aware of her presaround and act in a way that shows it to be laboring under the impression that something must be done, and done at once. If a plate happens to lie at ease on a bureau thinking of nothing, and taking the world as it mes, no sooner does it preceive that Miss Daisy is in the immediate vicinity than it springs up like a guilty thing surprised, and reaches the ceil ing at one bound, and then dashes itself to pieces on the floor. A humble coal scuttle, sitting quietly in the chimney corner and dream-

ing, perhaps, of the days when it was bright and young, will try to get out of the room as soon as this singular young woman entersit. In its haste to escape it will forget even its own contents and waddle to the door when, if it had had but the forethought to empty itself on the heath, it might as well as not have made its exit up the chimney. And we have the word of a local policeman for it that a seemingly inanimate two-quart bucket, which was dreaming away its exists ence on a mant!epiece in fancied security, leaped headlong from the dizzy height so soon as the door opened and Miss Robinson put in an appearance. A shovel, also, that was leaning in a corner "came prancing cut" as though it had some important business on hand which must be attended to without further delay, and then, becoming aware of that awful presence, fell clattering and banging to the ground in a dead laint.

These are strange doings, and they not only recall the Rochester knockings and the work of Miss Lula Hurst, but they remind us of Orpheus and Amphion, and the days when the world was young, and trees were the habit of pulling themselves up by the roots and dancing on the greens ward of the music of Pan's pipes. Poets have dreamed of such things, as did that great singer to whose lofty imagination it seemed that

The sow came in with the saddle, The little pig rocked the cradle, The spit stood behind the door And threw the dish-cloth on the floor, Can't you agree? I'm the head constable, Bring it to me."

It must be a terrible responsibility to have control over what in our blindness, we call inacimate nature, as is posessed by Miss Robinson. That the youngwoman feels this responsibility is, we judge, the reason why she seldom smiles. It is to be hoped that she will use her tremenduous power with what circumspection she may, but if, as is possibly the case, she is but the centre of terce and therefore irresponsible, Sumter, in South Caroliua, has some heavy sailing before it.

PASTOR THOMPSON, OF CHARLES-TON, STIRS UP A SENSATION.

He Writes a Communication Denouncing the Protestants who Took Part in the Reception of Cardinal Gibbons and the Cathedral Corner Stone Ceremonics-Some Men Who are Mad.

CHARLESTON, S. C., Jar. 14 .- The letter published this morning from the Rev. Dr. Thompson, pastor of the Scotch Presbyterian Church, denouncing the Protestants who took a prominent part and in the reception of Cardinal Gibbons and is the ceremonies of the laying of the reaching damage producer to the hucorner stene of the new cathedral has cresed something of a sensation.

The Catholic portion of the community is disposed to look on and view the quarrel from sfar. The most indignant ere the Protestant churchmen who are denounced by Mr. Thompson. Among those who took a prominent part in the reception of the Cardinal and the ceremoties were the Rev. Dr. Smart, pa-tor of Bethel M. E. Churah; the Rev. Dr. Levy, Rabbi of the Jewish synagogue: Mayor Bryan and Colonel H. E. Young. Wardens of St. Michael's P. E. Church; Judge Magrath and Maj. J. C. Hemp-hill, of the News. and Courier, both members of Dr. Thompson's church; Geo. W. Williams, the leading lay member of Trinity M. E. Church, and a dozen er more prominent and leading members of other Protestant churches in the city. Many of these are mad.

er. Thompson's Letter. The following is the letter referred to

n the above dispatch, printed in the News and Courier of yesterday:

To the Editor of the News and Courier: I have noticed the accounts given in nerves. Under the influence of such your columns of the visit of Cardinal drugs these nerves are either paralyzed Gibbons to our city and to the ceremonies attending the laying of the cornerstone of the Roman Catholic Cathedral. Your report of the citizens upon the wholesome supply of nutrient blood is platform includes some prominent Protestant laymen and one Protestant rily promote sleep, but ultimately de minister. The presence of those Protestants was

doubtless intended only as a courtesy, but it was more-it was a virtuai endorsement of those proceedings and a God speed to the gigantic ecclesiastical organization that conducted them.

It is the boast of that enurch that it is the only church of God. The Cardinal said as much on vesterday. It brands all others as heretics. A former Bishop of Charleston declared "within thirty years the Protestant heresy will come to ! an erd." It claims for itself temporal and spiritual supremacy. It tolerates which his slow acting brain awards those who differ from it only where it has not the power to enforce its claims. The Archbishop of St. Louis said: "Heresy and unbelief are crimes, and in Christian countries, as in Italy and olic religion is an essential part of the law of the land, they are punished as other crimes." The Catholic Review says: "Protestanism, of every form, has not, and never can have, any right where Catholicity is triumphant."

Its spirit has undergone no change since those days when it gave its order for and sang its "Te Deum" over the wholesale, indiscriminate slaughter of relpless Protestants.

Its fundamental principles are antagonistic to our government and its cher-

shed institutions. Its growth in this country menaces some of our dearest rights and privileges. Notes of warning have come to us from many of the foremost statesmen and

thinkers as to what we may expect should it ever gain the ascendency, and yet we have the spectacle of Protestant preachers and laymen, some of them the descendants of Huguenots, glorifying a Romish Cardinal and encouraging the extension of the spiritual despotism he life we but recall the beginning of extension of the spiritual despotism he represents. Had the circumstances been reversed Romanists would have been conspicuous by their absence.

I contend that Protestants are sacritempt upon their martyr dead, and are stultifying their former testimony and are sweeping the ground from under their feet as to mission work in Romish lands, and are imperilling the future of their country, by thus favoring Romish W. T. THOMPSON.
